What Members are saying: "Silicon Forest Electronics has found exhibiting in PNDC's shared booth at the AUSA Annual Meeting a great opportunity to connect directly with significant business opportunities. This is a big event with over 30,000 attendees, giving us excellent visibility with a variety of military procurement professionals and program officers, we have also made great connections with other defense contractors that need our manufacturing services. As a small business, The PNDC shared booth allows us to exhibit at AUSA without the expense and coordination of our own booth. We could not get this level of exposure and connections without PNDC presence and leadership."
