# Experience the Progress.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control/actuation systems, landing gear and air management systems as well as gears and gearboxes. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters. Liebherr's aerospace and

transportation systems division employs around 5,400 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline, Michigan (USA), Seattle, Washington (USA), Montreal (Canada), São José dos Campos (Brazil), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Bangalore (India), Singapore and Shanghai (People's Republic of China).

## Discover Why Design Engineers Choose NW Etch To Fabricate Parts For Their Coolest Projects - On & Off The Planet:

NW Etch is your precision machining choice for flat thin metal parts of complex design. Our photo chemical etching method will preserve the original temper strength of the raw material throughout the process, producing burr-free and oil free aerospace and defense components.

NW Etch will impress with a clarity and precision not available via other methods, at a competitive price. Preview our impressive machining process here at <https://www.nwetch.com/process>  
Then call 800-343-2401 to discuss how the NW Etch team will benefit your next project, or email Mitch @ [mitchz@nwetch.com](mailto:mitchz@nwetch.com)

**2001 Machining**

Milwaukie, Oregon

(503) 653-7088

[www.2001machining.com](http://www.2001machining.com)

2001 Machining is looking to partner with your company & become your external resource for machining & fabrication. Their team brings your designs to life by offering thoughtful manufacturing solutions. They have the tools to manufacture your concepts, the flexibility to incorporate your designs changes, materials to fabricate your parts & power to scale production.

**Abom**

Portland, Oregon

(503) 430-5494

[www.abom.com](http://www.abom.com)

Abom, Inc. is a wearable technology company and is in the business of inventing, producing, marketing, and selling innovative protective eyewear products to the military, industrial safety, and consumer markets. Abom's patented active anti-fog technology will not allow fog to survive in protective eyewear. Other applications are under development.

**Acumen Executive and Talent Search**

Lake Oswego, Oregon

(503) 430-0294

[www.acumenrecruiting.com](http://www.acumenrecruiting.com)

Dynamic leadership is essential. Acumen's value is proven with an 80-85% repeat business and client referral. Part of Acumen's success is their AcuSearch methodology in sourcing, qualifying, and recruiting the best candidates – based on your culture and specific needs.

**Advanced Navigation and Positioning Corporation (ANPC)**

Hood River, Oregon

(541) 386-1747

[www.anpc.com](http://www.anpc.com)

Advanced Navigation and Positioning Corporation (ANPC) is a world leader in deploy-able and permanent landing systems, navigation and air traffic management solutions for commercial and military customers. ANPC's technology uses transponder multilateration with ground-based sensors to track an aircraft's precise location with very high accuracy.

**AEC, Inc.**

Sandy, Oregon

(503) 668 -0656

[www.aecinc.com](http://www.aecinc.com)

From writing and Illustration capacity to new technologies, AEC helps customers to develop and integrate a wide range of technical documentation and information management solutions. They support programs in aerospace, defense, transportation, and more. AEC's cross-functional documentation teams collaborate closely with one another and with customer stakeholders to achieve the greatest good.

**Aerospace Joint Apprenticeship Committee (AJAC)**

Seattle, Washington

(206) 764-7940

[www.ajactraining.org](http://www.ajactraining.org)

Washington State funded the creation of the Aerospace Joint Apprenticeship Committee (AJAC) in 2008 to devise this avenue. AJAC is a statewide, nonprofit 501(c)(3) aerospace and advanced manufacturing registered apprenticeship program.

**Aerotek**

Tigard, Oregon  
(800) 242-0812  
[www.aerotek.com](http://www.aerotek.com)

For more than 30 years, Aerotek has distinguished itself as a leader in recruiting & staffing services by taking a people-focused approach to deliver competitive advantages for its clients and rewarding careers for its contract employees. Aerotek operates a network of over 250 non-franchised offices including 4 in Oregon and 7 in Washington.

**Aerovel Corporation**

Bingen, Washington  
(844) 359-8865  
[www.aerovelco.com](http://www.aerovelco.com)

Aerovel Corporation, led by Dr. Tad McGeer, has developed Flexrotor, a revolutionary vertical takeoff and landing, unmanned aerial system. Dr. McGeer has been a founder, developer, and primary architect of UAS at various companies for more than 25 years. Aerovel's Flexrotor is the next evolution in unmanned aerial systems.

**Aldrich CPAs & Advisors LLP**

Lake Oswego, Oregon  
(503) 620-4489  
[www.aldrichadvisors.com](http://www.aldrichadvisors.com)

The only Oregon-based Top 100 Accounting Firm, Aldrich provides a broad range of advisory services including accounting, auditing, tax compliance, business valuation, international tax services, and management consulting to closely held businesses, nonprofit organizations, and individuals.

**Allied Systems Company**

Sherwood, Oregon  
(503) 625-2560  
[www.alliedsystems.com](http://www.alliedsystems.com)

Allied Systems owns several product lines, including Allied Marine Crane, Allied Winch, Wagner Chip Dozer, Wagner Coal Dozer, Wagner Lumberjack, Wagner Steel Handler, Long Reach Attachments, and Freeman Hay Handling Equipment. Allied's skilled engineering and manufacturing teams have the capability to build custom equipment and vehicles to your design or design the equipment to your standards.

**Allied Technologies**

Tualatin, Oregon  
(503) 691-8999  
[www.alliedti.com](http://www.alliedti.com)

Allied Technologies is an AS9100D/ISO9001:2015 Certified, ITAR registered 25+ year precision CNC Contract Manufacturing company specializing in Swiss Turning and milling of metallic components for Aerospace, Energy, Telecommunications and high-tech applications. Their production operations provide flexibility on emergent demands and they take pride in 99%+ acceptance rate across industries.

**Altman Browning and Company**

Portland, Oregon  
(503) 233-7789  
[www.altmanbrowning.com](http://www.altmanbrowning.com)

Altman Browning & Company provides turn-key solutions and modernization of heavy industrial equipment. Their strength is in integrating best in-class standard components into their custom equipment. Then, using a systems approach, they employ best practices to complete the engineering design and analysis.

**AMMCON Corp.**

Hillsboro, Oregon

(503) 645-5206

[www.ammcon.com](http://www.ammcon.com)

AMMCON Corp. provides advanced manufacturing and marine concepts. They manufacture marine piping components and welded products in all ferrous and non-ferrous alloys.

**Anderson Quality Spring Manufacturing (AQS)**

Canby, Oregon

(503) 266-6800

[www.andersonqualityspring.com](http://www.andersonqualityspring.com)

Anderson Quality Spring is a manufacturer of custom coil springs and formed metal products. They work with manufacturing companies worldwide in the automotive, truck, aerospace, defense, medical, dental, electronic, and sporting goods industries. Their capabilities range from simple coil springs, to exotic metal forms, to wave springs, and beyond.

**AR Modular**

Bothell, Washington

(425) 485-9000

[www.arww-modularrf.com](http://www.arww-modularrf.com)

AR Modular designs, manufactures, and distributes innovative, dependable, durable RF amplifier modules and broadband solid-state RF amplifier systems. Their products play a critical role in wireless and radio communications, military communications, electronic warfare, homeland security, and have medical, scientific, and industrial applications from 0.01 - 6,000 MHz. With output powers from 5 - 5,000 watts.

**ARCH Global Precision (formerly Valley Machine)**

North Plains, Oregon  
(503) 647-2220  
[www.archglobalprecision.com](http://www.archglobalprecision.com)

ARCH Global Precision is a consolidated precision machining services company. Their nationwide engineering and manufacturing facilities are dedicated to your critical part production and the delivery of products and subassemblies. ARCH combines the expertise of leading American manufacturers and expanding technologies to serve the aerospace & defense, medical, and industrial markets.

**Arcturus UAV**

Camas, Washington  
(707) 206-9372  
[www.arcturus-uav.com](http://www.arcturus-uav.com)

Arcturus UAV manufactures long endurance unmanned aerial vehicles primarily for military ISR. The T-20 is a catapult launched UAV and the Jump 20 is a VTOL variant.

**Ascentec Engineering**

Tualatin, Oregon  
(503) 925-1942  
[www.ascenteceng.com](http://www.ascenteceng.com)

Assembly and Integration of advanced machined components.

**Ascentron**

White City, Oregon  
(541) 840-8433  
[www.ascentron.com](http://www.ascentron.com)

Ascentron is an electronic manufacturing services company with services from PCB assembly (using both surface mount and through-hole technologies) to complete box builds and post manufacturing services. They combine state-of-the-art manufacturing equipment along with a highly-qualified team of dedicated employees to produce superior quality product.

**Asko Processing**

Seattle, Washington  
(206) 634-2080  
[www.askogroup.com](http://www.askogroup.com)

For more than 50 years, the Asko Group of companies has provided a complete range of high-quality services to plate, paint, repair, or recondition metal parts for aerospace, electronics, and industrial applications.

**Astronics, PECO Inc.**

Clackamas, Oregon  
(503) 419-4404  
[www.pecomanufacturing.com](http://www.pecomanufacturing.com)

Astronics PECO Inc. is a leading provider of mission-critical defense solutions. Their capabilities include engineering, complex assembly, and functional testing, along with strong vertically integrated manufacturing, including plastic injection molding, die-casting, CNC machining, and NADCAP-accredited finishing/bonding/NDT processes. PECO is certified AS9100/ISO9001.

**Ater Wynne**

Portland, Oregon

(503) 226-8489

[www.aterwynne.com](http://www.aterwynne.com)

Ater Wynne law firm offers a full range of business law services including: negotiation of international trade transactions, export controls compliance for commercial products under the EAR and military products under the ITAR, import and customs compliance, government contracts, IP protection, corporate reorganizations, and mergers and acquisitions.

**Aviatrix, Inc.**

Sherwood, Oregon

(503) 925-7970

[www.AviatrixUSA.com](http://www.AviatrixUSA.com)

Aviatrix is a world-class aerospace parts supplier with a foundation built on customer service and quality. Aviatrix offers years of experience in the aerospace industry and is nationally recognized for supplying critical parts in a timely manner.

**Axiom Electronics, LLC**

Hillsboro, Oregon

(503) 643-6600

[www.axiomsmt.com](http://www.axiomsmt.com)

Every day Axiom Electronics delivers mission critical flight hardware, spacecraft components, medical products, test systems, and other high performance systems they are proud of. Axiom offers consignment and turnkey circuit board assembly, engineering support services, systems integration and systems test, and lifecycle support.

**Banner Bank**

Lake Oswego, Oregon  
(503) 684-2339  
[www.bannerbank.com](http://www.bannerbank.com)

Banner Bank is a dynamic full-service Northwest financial institution, operating safely and profitably within a framework of shared integrity.

**Bear Arms Security Services**

Milwaukie, Oregon  
(503) 320-9421  
[www.beararmssecurity.com](http://www.beararmssecurity.com)

Bear Arms Security Services, LLC provides customized security solutions incorporating low-tech, high-reliability systems and professional armed officers in response to high-threat, high visibility, persons and events throughout the State of Oregon.

**Barnard Howard LLC**

Edgewood Washington  
(253) 327-4995  
[www.barnardhoward.com](http://www.barnardhoward.com)

Since 2007, BH has provided consulting services to clients & government agencies worldwide. From their expert guidance on crucial matters to strategic advice on important decisions, they are here to guide you. BH will work with you to help drive results in Program Management, Supply Chain, Security Assessments, Technology Services and more.

**Benchmade Knife Company**

Oregon City, Oregon  
(800) 800-7427  
[www.benchmade.com](http://www.benchmade.com)

For three decades, Benchmade has been designing and manufacturing the world's finest knives and edged tools. Benchmade products are developed for extreme duty and engagements where performance is a requirement. They are the preferred cutting tools for elite military troops and public safety professionals, worldwide.

**BGI Worldwide Logistics**

Tigard, Oregon  
(503) 992-6776  
[www.bgiworldwide.com](http://www.bgiworldwide.com)

BGI was founded in 1999 to fill the need for a single source logistics firm that could deliver ocean, air, truck and rail, and customs brokerage services; while raising the standards of service and commitment. BGI's customers rely on them as their expert resource in an increasingly complex domestic and international transportation environment.

**BID Designs**

Kennewick, Washington  
(256) 489-2815  
[www.bid-designs.com](http://www.bid-designs.com)

BID Designs (est. 2006) provides government contractors with high-quality proposal infrastructure support services to ensure they can bid more, spend less, and win more contracts with efficiency, compliance and quality in compliance matrices, outlines, templates, compliance reviews, graphics, desktop publishing, and final production.

**Bradford Engineers**

Tualatin, Oregon

(503) 694-2437

[www.bradfordengineers.com](http://www.bradfordengineers.com)

Formed in 1999 as a consulting enterprise offering electrical services, Bradford today houses a full range of capabilities including Mechanical, Electrical, Plumbing (MEP), and other services. Diverse capabilities and project experience enables them to offer total coordination and management that encompasses planning, design, and construction support.

**Brake Systems**

Portland, Oregon

(503) 236-2116

[www.brakesystemsinc.com](http://www.brakesystemsinc.com)

Specializing in manufacture, remanufacture, and distribution of air, electronic throttles, and exhaust brakes. Brake Systems are experts at troubleshooting, engineering, and custom design work. They are committed to providing superior service with the highest quality workmanship in our industry.

**Bridge Partners**

Seattle, Washington

(425) 296-6073

[www.bridgepartnersconsulting.com/practices/operations-and-technology](http://www.bridgepartnersconsulting.com/practices/operations-and-technology)

Bridge Partners helps Government organizations and companies subject to Government cybersecurity regulations and compliance transform to drive growth, adapt to change, and create enterprise value. They provide particular expertise in ITAR, NIST SP 800-171, NIST SP 800-53, and related information technology compliance.

**Bulletproof-IT**

Vancouver, Washington  
(360) 991-5365  
[www.bulletproof-it.com](http://www.bulletproof-it.com)

BULLETPROOF-IT offers optimum protection armor solutions to any and all of your bullet resistance needs. They offer armor solutions from body armor to automotive, aircraft, marine, and architectural armor solutions. BULLETPROOF-IT can provide a wide range of personal armor solutions to meet the needs of both international and domestic end users.

**Business Oregon**

Portland, Oregon  
(503) 986-0123  
[www.oregon4biz.com](http://www.oregon4biz.com)

As the State of Oregon's economic development department, Business Oregon is dedicated to helping Oregon based businesses start, grow, and thrive. Special focus is placed on supporting targeted traded sectors, such as Aerospace and Defense; and assisting businesses in capitalizing on opportunities related to their associated supply chains.

**Cascade Engineering Technologies**

Canby, Oregon  
(503) 266-1300  
[www.cet.aero](http://www.cet.aero)

Cascade Engineering Technologies is Oregon's premier supplier of complex aerospace airframe and engine components for both commercial aviation and defense sector. They specialize in the development and production of challenging and complex aerospace "build to print" parts. Their capabilities include titanium CNC machining, assembly, dimensional inspections, and reverse engineering.

**Cascade Protection Systems**

Tualatin, Oregon

(800) 999-2645

[www.cascadeprotectionsystems.com](http://www.cascadeprotectionsystems.com)

GuardianCoil is a highly engineered, innovative product that provides Dynamic Blast Protection and provides a range of desirable properties to security consultants and construction specification writers. GuardianCoil security systems provide a beautiful and effective solution for partitioning spaces and securing facilities without sacrificing aesthetics and visibility into the secured space.

**Cascade Systems Technology**

Hillsboro, Oregon

(503) 640-5733

[www.cascadesystems.net](http://www.cascadesystems.net)

Cascade Systems Technology (CST) is a contract manufacturing company in Hillsboro, Oregon. Their capabilities include PCBA, Box Build, Microelectronics, Engineering, Rework, and Prototyping. CST specializes in a variety of defense, commercial, medical, aerospace, energy, and industrial applications with LED, EV, sensors, cable and wire assemblies.

**CB Technologies**

Kirkland, Washington

(888) 241-7585

[www.cbtechinc.com](http://www.cbtechinc.com)

CB Technologies facilitates the entire solution cycle from proof-of-concept and procurement, to system integration and life cycle management. The company's decades of experience supporting, planning, and integrating technology spans clients from the United States Department of Defense to global enterprises such as Boeing and Ford.

**Cedar House Media**

Beaverton, Oregon

(503) 641-3320

[www.cedarhousemedia.com](http://www.cedarhousemedia.com)

Cedar House Media has been one of the premier printing and graphics companies in the Portland area for over 13 years. Whether it is traditional paper printing, mailings, books, or even large format graphics and signs, Cedar House is your go-to choice for all your printing needs. Cedar House also has a team of Graphic and Web Designers who can help you with any need you might have. With fast and flexible print production, there is no project too big or too small for Cedar House Media.

**Center of Excellence for Aerospace & Advanced Manufacturing**

Everett, Washington

(425) 388-9196

[www.coeaerospace.com](http://www.coeaerospace.com)

The Center of Excellence (COE) for Aerospace & Advanced Manufacturing serves as a central hub for industry trends, best practices, innovative curriculum & professional opportunities. Coordinating with education, industry partners & other stakeholders, these relationships build the workforce pipeline & educational avenues for the next generation.

**Center of Excellence for Global Trade & Supply Chain Management**

Des Moines, Washington

(206) 592-4838

[www.coeglobaltrade.com](http://www.coeglobaltrade.com)

The Center of Excellence GTSCM is one of ten Centers of Excellence statewide and its purpose is to serve as the statewide liaison to business, industry, labor, and the state's educational systems for the purpose of creating a highly skilled and readily available workforce critical to international trade and the supply chain.

**Chernoff Vilhauer**

Portland, Oregon

(503) 227-5631

[www.chernofflaw.com](http://www.chernofflaw.com)

Chernoff Vilhauer works with inventors and businesses to safeguard their intellectual property by securing and enforcing patents, trademarks, and copyrights, including litigation when appropriate. They also provide advice on those and related matters, including trade secrets, licensing, franchising, unfair competition, and false advertising.

**Chinrose International**

Cornelius, Oregon

(503) 357-7553

[www.chinrose.com](http://www.chinrose.com)

Chinrose International is a woman-owned business. Their many years in manufacturing and assembling of a wide range of locks, latches, and security hardware enables them to sell to many industries. Chinrose takes pride in supplying the U.S. Military, National Guard, aerospace, law enforcement, technology, trucking, self storage, and many other types of customers. They also customize locks to fit unique applications.

**CI Security**

Bremerton, Washington

(206) 687-9100

[www.ci.security](http://www.ci.security)

CI Security provides Managed Detection Response services, combining purpose-built technology with expert security analysts to perform full-cycle threat detection, investigation, response, and recovery. Supporting healthcare, public sector, and financial services, CI Security's technology platform, Security Operations Center, and Information Security consulting services help customers gain critical insight into their security posture.

**City of Beaverton, Oregon**

Beaverton, Oregon  
(503) 526-2456  
[www.beavertonoregon.gov](http://www.beavertonoregon.gov)

Beaverton, the sixth largest city in Oregon, offers a balanced and thriving economy, highly educated workforce, and quality of life that is nothing short of enviable. From world class business parks and thriving commercial corridors to a renowned historic downtown, Beaverton offers tremendous opportunities for expanding businesses, corporate offices, technology companies, and entrepreneurial start-ups.

**Clackamas Community College**

Oregon City, Oregon  
(503) 594-6000  
[www.clackamas.edu](http://www.clackamas.edu)

CCC is ranked one of the best two-year colleges for military students and their families. From their hands-on programs to their business-solutions division, Connections with Business and Industry, CCC has many ways to support your business needs.

**Clackamas County**

Oregon City, Oregon  
(503) 557-6416  
[www.co.clackamas.or.us](http://www.co.clackamas.or.us)

Clackamas County is the third-most populous county in Oregon, with about 412,000 residents. The county’s Economic Development Division encourages and supports industries throughout the county. Principal industries include advanced manufacturing, high-tech, food processing, agricultural production, and more.

**Cloutier Ortega PLLC**

Seattle, Washington

(206) 319-9001

[www.cloutierglobal.com](http://www.cloutierglobal.com)

Cloutier Ortega works with entrepreneurs, executives and business leaders to help them innovate and ignite change within their industries by providing effective, thoughtful and comprehensive legal services. Their team stays ahead of the ever-changing legal landscape so that their clients can work at the very forefront of innovation.

**Colby Instruments**

Bellevue, Washington

(425) 452-8889

[www.colbyinstruments.com](http://www.colbyinstruments.com)

Test and Measurement Industry manufacturer of Programmable Delay Line Instruments for use in RF/microwave frequency electronic signal applications.

**Columbia Bank**

Vancouver, Washington

(360) 695-3439

[www.columbiabank.com](http://www.columbiabank.com)

[www.lgssolutions.us](http://www.lgssolutions.us)

LGS Solutions is a Service-Disabled Veteran-Owned independent consulting firm. Their primary focus is providing experienced advice to organizations positioning themselves for U.S. Navy and DoD business opportunities. Company capabilities reside in three primary discipline areas: business development, program management, and client relations management.

**Liebherr-Aerospace & Transportation**

Everett, Washington  
(425) 348-9128  
[www.liebherr.com](http://www.liebherr.com)

**LIEBHERR**

Liebherr-Aerospace develops, produces, and services military aviation advanced air management, flight control, and landing gear systems as well as dedicated control electronics, power electronics and gearboxes for a wide range of applications such as tanker and refueling aircraft, transport and training aircraft, unmanned air vehicles, surveillance, and fighter as well as search and rescue aircraft.

**LifePort**

Woodland, Washington  
(360) 225-3202  
[www.lifeport.com](http://www.lifeport.com)

Founded in 1990, LifePort is a world leader in the design, manufacture and certification of a wide range of mission equipment products for the aviation industry. Today, LifePort provides customized interior solutions for any aircraft and any mission.

**LKD Aerospace**

Snoqualmie, Washington  
(425) 396-0829  
[www.lkdaerospace.com](http://www.lkdaerospace.com)

LKD Aerospace is a global distributor, manufacturer & MRO of aerospace components specializing in distribution of aircraft spares, FAA PMA parts and MRO services. Their Gladiator Technologies division designs, manufactures and supports low noise, high performance inertial systems and sensors used in a broad range of applications around the world.

**Local Fresh**

West Linn, Oregon  
(503) 534-1221  
[www.localfresh.com](http://www.localfresh.com)

Local Fresh is a full service digital marketing agency, offering strategic, creative, technical, and fully interactive services to businesses, including: Overall marketing plan and content marketing strategies, unique and fully responsive website designs, SEO (Search Engine Optimization) and SEM (Search Engine Marketing), brand identity, logo creative and print collateral, social media and email marketing strategies and photography and video services.

**Luminant Digital Security**

Portland, Oregon  
(503) 905-3285  
[www.luminantsecurity.com](http://www.luminantsecurity.com)

Luminant doesn't just scan your IT environment and leave you to decipher the results. Luminant combines both digital security proficiency and a deep technical background to deliver Information Security consulting services, cybersecurity assessments and managed security solutions for NIST, ITAR, DFARS and FedRAMP. Luminant can show you the way.

**M2 Innovative Concepts**

Tacoma, Washington  
(253) 383-5659  
[www.gridsurfaces.com](http://www.gridsurfaces.com)

M2 manufactures high end tile and architectural surfaces from glass, ceramic, porcelain, stone, and metal. They also use their water jet cutting capabilities to create forms, dies, extruder plates, and layout jigs for various manufacturers.

**Machine Research**

Wilsonville, Oregon  
(800) 930-0289  
[www.machineresearch.com](http://www.machineresearch.com)

Machine Research provides ITAR-secure software to manufacturers that helps them make higher quality products faster and with less wasted effort. Built to solve workflow processing problems, Machine Research developed a platform that brings together tribal knowledge, leverages the power of collaboration, and significantly improves efficiency and profitability.

**Machine Sciences Corporation**

Wilsonville, Oregon

(503) 682-9980

[www.machinesciences.com](http://www.machinesciences.com)

They make what you design. With the newest and most advanced equipment in the industry and an unbelievably talented staff, they are ready to handle your machining needs. Machine Sciences Corporation provides a variety of custom machining and manufacturing services to the following industries: aerospace electronics, medical equipment, defense electronics, high technology, and structural aerospace.

**Mantel Technologies**

Tacoma, Washington

(508) 410-9230

[www.manteltechnologies.com](http://www.manteltechnologies.com)

Mantel Technologies is a small business focused on solving challenging problems through application-driven technology and product development. Their offerings span ideation to in-service support in the areas of advanced materials, concealable/wearable systems, chemical/material process development, and technical analysis.

**Marine Lumber**

Tualatin, Oregon

(503) 692-4150

Marine Lumber Company has been in business since 1946. They have a five acre remanufacturing facility located in Tualatin, Oregon. They have over forty different pieces of wood working equipment and custom manufacture various softwood and plywood components for our customers. They also import plywood from China and export manufactured wood products overseas.

**Meggitt OEEO**

Milwaukie, Oregon  
(503) 659-5999  
[www.oeco.com](http://www.oeco.com)

OEEO engineers and manufactures a multitude of product lines that include power generation, power conversion, sensors, and control electronics for civil, military and defense applications.

**Meggitt Polymers & Composites**

McMinnville, Oregon  
(503) 472-0045  
[www.meggitt.com/meggitt-polymers-composites](http://www.meggitt.com/meggitt-polymers-composites)

Meggitt Polymers & Composites is a leader in the design, engineering, and manufacture of robust and cost effective sealing solutions. They make silicone and rubber extrusions, calendered sheet goods, custom-molded parts, die-cut gaskets, parts cut with water-jet, aerodynamic and fireproof seals, grommets, flexible hoses, convoluted boots, reinforced and fabric covered seals, construction panel gaskets, and V band clamps and couplings.

**Meridian Finance Group**

Santa Monica, California  
(310) 260-2130  
[www.meridianfinance.com](http://www.meridianfinance.com)

Meridian Finance Group provides tools that exporters use to expand sales: export credit insurance, cross-border equipment financing, political risk insurance, international leasing & other trade finance services. Meridian helps exporters extend competitive payment terms abroad while protecting their foreign receivables against default risks.

**Merit Harbor Capital**

Tacoma, Washington

(253) 327-1490

[www.meritharborgroup.com](http://www.meritharborgroup.com)

Merit Harbor Capital is a Boutique Investment Bank serving middle market companies. They are a client-focused team of experienced entrepreneurs with expertise in a broad range of industries. Merit Harbor, member FINRA/SIPC, is a full-service Broker Dealer executing M&A transactions, debt and equity capital raises and valuation services.

**Metal Technology**

Albany, Oregon

(541) 926-9968

[www.mtialbany.com](http://www.mtialbany.com)

Metal Technology (MTI) serves the defense, aerospace, and scientific industries via custom precision CNC machining, press forming, and additive manufacturing. MTI is among the best in world at machining and forming exotic high temperature and corrosion resistant metal alloys including titanium, zirconium, molybdenum, tantalum, nickel, and inconel.

**Metron**

Portland, Oregon

(503) 894-7435

[www.metsci.com](http://www.metsci.com)

Metron is a scientific consulting company comprised of physicists, mathematicians, signal processing experts, software developers, and engineers who are dedicated to solving challenging problems in national defense.

**Miles Fiberglass & Composites**

Happy Valley, Oregon  
(503) 775-7755  
[www.milesfiberglass.com](http://www.milesfiberglass.com)

Miles Fiberglass and Composites is a forward-thinking company devoted to finding innovative solutions using fiberglass and other composites to meet customer needs. Miles Fiberglass and Composites products can be found in a wide range of industries, including wind energy, military, infrastructure, and transportation applications.

**Modern Business Transportation**

Estacada, Oregon  
(800) 366-5390  
[www.modernbiz.com](http://www.modernbiz.com)

Modern Business Transportation has nine traffic and transportation specialists providing 305 combined years of experience. A DoD-certified and bonded transportation provider and contract motor carrier, they understand irregular routes, LTL, 3PL, spot market, JIT, small business traffic and data management, carrier traffic financing, and mom and pop personal and professional trucking services.

**Morpac Industries**

Pacific, Washington  
(253) 735-8922  
[www.morpac.com](http://www.morpac.com)

Morpac is a manufacturer of high voltage electrical switches, line stringing equipment, and electrical valve actuators. They are a current supplier of actuators for the U.S. Navy.

**Moss Adams**

Portland, Oregon

(503) 478-2282

[www.mossadams.com](http://www.mossadams.com)

Moss Adams is a fully integrated accounting, consulting and wealth management firm dedicated to assisting clients with growing, managing, and protecting prosperity. With more than 2,900 professionals and staff across more than 25 locations in the West and beyond, they work with many of the world's most innovative companies and leaders.

**NDE Professionals**

Portland, Oregon

(503) 287-5255

[www.ndeprofessionals.com](http://www.ndeprofessionals.com)

NDE Professionals, Inc. specializes in providing nondestructive testing and quality consulting to the commercial aerospace, defense, energy, maritime, petrochemical, pulp and paper, semiconductor, and transportation industries.

**Near Space Corporation**

Tillamook, Oregon

(503) 842-1990

[www.nsc.aero](http://www.nsc.aero)

NSC provides services in support of high altitude balloon and unmanned aerial system (UAS) flight operations. NSC is an industry leader in near space operations, with an established record of meeting NASA, NOAA, and DoD high altitude requirements. NSC also operates the FAA designated Tillamook UAS Test Range to support the emerging UAS market.

### **New Era Contract Sales**

Tacoma, Washington

(253) 272-3553

[www.newerasalesteam.com](http://www.newerasalesteam.com)

New Era is the logical choice to serve as the DoD dealer for your partner's products, with military documentation and compliance. Their capabilities include: procurement management services, WAWF, DD250, MSL & Mil-Spec packaging services, emergency spot buys, logistics services, and kitting solutions.

### **Northwest Machine Works**

Canby, Oregon

(503) 266-8096

[www.nwmw.com](http://www.nwmw.com)

Northwest Machine Works has been the engineer's most trusted source for CNC machined parts and components, since 1966. Producing precision parts to your spec from prototype to production. Stellar communication and partnerships with your engineering team allows them to provide ideally designed and machined components for the lifetime of your products.

### **Northwest UAV**

McMinnville, Oregon

(503) 434-6845

[www.nwuav.com](http://www.nwuav.com)

Northwest UAV is America's largest UAV Propulsion System Manufacturer. They develop and deliver reliable, cost effective UAS systems around the globe. Their team has the experience to understand critical UAS requirements, using a total lifecycle approach providing top quality, high-performance solutions for your system platform. NWUAV | AS9100 certified.

**NW Alpine Gear LLC**

Newberg, Oregon

(503) 208-5775

[www.nwalpine.com](http://www.nwalpine.com)

NW Alpine is an outdoor apparel brand producing superior garments for a variety of industries. While they specialize in athletic and outdoor apparel, their plant in Newberg, Oregon allows them unparalleled flexibility in what they produce for a wide range of industries. NW Alpine Gear adheres to lean manufacturing principles which allow them to achieve excellent quality standards and fast turn around times.

**NW ETCH**

Tacoma, Washington

(800) 343-2401

[www.nwetch.com](http://www.nwetch.com)

NW Etch is your alternative machining method for flat, thin metal parts of complex design when other machining methods won't suffice. They provide burr-free and oil free aerospace parts without discoloration, warping, or structural changes to the metal. Their photo chemical machining results will impress with a clarity and precision not available via other methods, at a competitive price.

**NW4S, Inc dba Northwest Fourslide**

Tualatin, Oregon

(503) 625-4555

[www.nw4s.com](http://www.nw4s.com)

NW4S manufactures precision stamped parts and wire forms with high quality tooling designed/manufactured in house. Additional services include parts washing, heat treat, debur, WEDM, assembly, tape n reel, and many other value added services. NW4S is known for the highest standards of quality. ISO 9001:2015 and AS9100D certified, ITAR.

**Oles Morrison Rinker & Baker**

Seattle, Washington  
(206) 623-3427  
www.oles.com

Oles Morrison Rinker & Baker is one of the West Coast’s most experienced and trusted law firms. They have been providing legal counsel to companies in all phases of construction and government contracting. They work with a variety of government contractors including: construction, base operations, defense, maritime, engineering, aerospace, information technology, energy and communications.

**OMEPE**

Portland, Oregon  
(503) 406-3774  
www.omep.org

OMEPE exists to bring results to Oregon manufacturers. Their goal for you is permanent, long-term profitability. Beyond revenue growth, OMEPE helps you set a foundation of operational excellence, build sustainable sales and marketing infrastructure, and cultivate an engaged and productive workforce. Their custom approach is centered around your business needs, to maximize your full potential.

**OptiMIM**

Wilsonville, Oregon  
(503) 404-1200  
www.optimim.com

OptiMIM is a global manufacturer of small, engineered metal components. Utilizing proprietary die cast and metal injection molding technologies, they offer robust solutions to companies in automotive, consumer electronics, healthcare, hardware, computers and peripherals, and many other industries.

**OptiNav**

Bellevue, Washington

(425) 891-4883

[www.optinav.com](http://www.optinav.com)

OptiNav provides acoustical measurements and research. Dr. Dougherty has made contributions to the phased array aeroacoustic test technique, including beamforming algorithms, array design, and presentation of results. He has applied this technique to clarify airframe, turbomachinery, and jet noise sources. He also developed standard computer programs for predicting nacelle acoustic propagation by ray tracing (RDIFF) and the parabolic approximation.

**Opus Interactive**

Hillsboro, Oregon

(503) 972-6677

[www.opusinteractive.com](http://www.opusinteractive.com)

Opus Interactive delivers customized end-to-end support for Cloud Computing & IaaS (hybrid cloud, public cloud, private cloud, and multi-cloud), Virtual Desktop Infrastructure Object Storage, Datacenter Colocation Backup, and Disaster Recovery Multi-Cloud Monitoring & Management.

**Oregon Ballistic Laboratories (OBL)**

Salem, Oregon

(503) 540-8114

[www.oregonbl.com](http://www.oregonbl.com)

OBL is an independent, full service armor testing lab located in Salem, Oregon. OBL generates accurate and impartial test data which is used throughout the world as a measure of quality, performance, and safety. Their services are divided into five distinct categories: Ballistic Testing, Body Armor Testing, Stab Testing, Blast Testing, and Forced Entry Testing.

**Oregon Institute of Technology (Oregon Tech)**

Wilsonville, Oregon  
(503) 821-1250  
www.oit.edu

Oregon Tech is a public university founded on the principles of excellence through hands-on teaching and learning. They believe in giving students a rigorous education through professional practice so students apply cutting-edge concepts to real-world issues. As a highly ranked public polytechnic institution, they take pride in their mission to deliver bachelor and master degrees to students in the Pacific Northwest and beyond.

**Out of the Box Manufacturing**

Renton, Washington  
(253) 214-7448  
www.obmfg.com

Out of the Box Manufacturing is an Electronic Service Provider specializing in quick-turn prototyping, low to medium-volume production and rework/repair and upgrades of finished PCBAs. OBMFG supports the aerospace, defense, medical, commercial and industrial industries. They offer full PCB assembly, box build, and end order fulfillment for turnkey or consigned orders. AS9100 Rev D : ISO13485 : ITAR registered.

**Pacific Northwest National Laboratory (PNNL)**

Richland, Washington  
(509) 372-6622  
www.pnnl.gov

Interdisciplinary teams at PNNL address many of America’s most pressing issues in energy, the environment, and national security through advances in basic and applied science. Founded in 1965, PNNL employs 4,400 staff and has an annual budget of nearly \$1 billion. It is managed by Battelle for the U.S. Department of Energy’s Office of Science.

**Pacific Swiss & Manufacturing**

Clackamas, Oregon

(503) 557-9407

[www.pacificswissmfg.com](http://www.pacificswissmfg.com)

Pacific Swiss specializes in high precision CNC Swiss Turning and CNC Swiss Micro/Miniature turning. They manufacture medium to high volume production of basic to complex components from a wide range of metals and plastics. Industries served but not limited to: medical, aerospace, nuclear, optics, electrical, connector, and test and measurement. ISO 9001:2015 certified

**Pacific Test and Measurement**

Clackamas, Oregon

(503) 406-4373

[www.pacifictestandmeasurement.com](http://www.pacifictestandmeasurement.com)

Pacific Test and Measurement are distributors and manufacturer's reps for test and measurement equipment. They offer everything from submersible pressure transmitters to portable pressure calibrators, and digital multimeters to temperature/humidity sensors, compliance testing thermocouples, intrinsically safe pressure transmitters, and so much more.

**PacStar**

Portland, Oregon

(503) 403-3000

[www.pacstar.com](http://www.pacstar.com)

PacStar is a leading technology-based systems integrator that delivers advanced, reliable, and interoperable tactical and enterprise communications systems. PacStar is mission-focused, technically unrivaled, and dedicated to delivering innovative communications solutions based on advanced, proven technologies for use in the most demanding of environments. Their customers give them the highest ratings for quality and customer support.

**Patmos Engineering Service**

Issaquah, Washington  
(206) 226-6561  
[www.patmos-eng.com](http://www.patmos-eng.com)

Patmos offers a unique skill set for digital design (FPGA, ASIC, board level) as well as FAA DER review and approval authority for programmable devices and software. In the aerospace domain, the Patmos team supports both commercial and military avionics design and certification programs as well as products for medical and consumer markets.

**Pegasus Northwest**

Kent, Washington  
(253) 854-5451  
[www.pegasusnw.com](http://www.pegasusnw.com)

Pegasus has built an exceptional reputation of quality and service and has been considered the premier Water -Jet cutter in the Pacific Northwest since 1997. Specializing in precise computer controlled cutting of a vast range of materials, they consider meeting the tightest tolerances to be the hallmark of their waterjet cutting services. Their customers consider them the “Composite Specialists” due to their creative tooling and extensive R&D with this hard to process material.

**Pinnacle Aerospace**

Everett, Washington  
(425) 330-1416  
[www.pinnacleaerospace.com](http://www.pinnacleaerospace.com)

Pinnacle Aerospace is a software and technology services provider. They are the aerospace community partner of choice for high quality cost effective software and product solutions delivered as promised. Pinnacle Aerospace offers full life cycle support for all DO-178 and DO-254 mission critical software and hardware applications. They are experts in systems design and requirements development.

**PMT Shielding Solutions**

Tigard, Oregon  
(503) 684-0725  
[www.p-mtinc.com](http://www.p-mtinc.com)

Plastic-Metals Technologies and PMT Shielding Solutions are a leader in vacuum metallizing, primarily engaged in the aerospace, defense, and medical industries. In addition to extensive experience in vacuum metallizing, physical vapor deposition, and paint finishing, they offer expertise in electronics product design, operations, and manufacturing.

**Poly-Cast**

Tigard, Oregon  
(503) 431-1118  
[www.poly-cast.com](http://www.poly-cast.com)

Poly-Cast is a premier plastic injection company that produces products for industrial, commercial, medical, dental, and recreation products. Poly-Cast utilizes their engineering team to work with clients who have product designs, questions, and collaboration for the best plastic injection molding success there is. Poly-Cast is ISO 9001 certified.

**Precise Flight**

Bend, Oregon  
(800) 547-2558  
[www.preciseflight.com](http://www.preciseflight.com)

Precise Flight is an innovative and reliable solutions provider for the aviation industry. Precise Flight's capabilities encompass eight primary areas, including: aircraft lighting, aviation oxygen, environmental control systems, electromechanical controls, complete certification services, 3d printing, complete engineering services, manufacturing support services, and spoiler systems.

**Precision Integrated Programs**

Newberg, Oregon  
(541) 414-5244  
www.flyprecision.com

Precision is an FAA Approved Flight School offering approved courses from initial pilot certification to instructor pilot privileges. Additionally, approved specialty courses are offered in airplane and helicopters. Courses offer a range of instruction, from standard VFR and IFR, to advanced technical skills such as external-load training and confined area operations.

**Rainier Arms**

Auburn, Washington  
(253) 218-2999  
www.rainierarms.com

Rainier Arms specializes in high end AR15s/M16s parts and accessories. Founded in 2005, Rainierarms.com already has more than 4,600 unique products that include firearms, uppers, lowers, barrels, ammunition, and accessories. Thier technical advisory team consists of enthusiasts, law enforcement, and military personnel that continue to make our offerings unique and desirable in the market place.

**Ran-Bro Tool Co.**

North Plains, Oregon  
(503) 647-7448  
www.ran-bro.com

Ran-Bro Tool is a custom machining job shop specializing Large tools and parts, design and manufacture of high pressure molds for the plastic injection molding and die casting industries. They serve: investment casting Wax molds, die casting, and injection molding, Dies, target fixtures, and short run production. Machining since 1965. Tool Repairs & alterations, titanium gate busting.

**Ran-Tech Engineering & Aerospace**

Clackamas, Oregon

(503) 652-3353

[www.rantech.net](http://www.rantech.net)

By using cutting edge technology to design quality into every sheet metal, machined, formed, or assembled product they produce, Ran-Tech consistently delivers the high performing parts you need to get your project completed on-time and to your standards. In order to maintain the high standards of quality for their products, Ran-Tech internally designs and manufactures tooling for all processes within the factory.

**Real Axis Machining**

Battle Ground, Washington

(360) 723-0753

[www.realaxismachining.com](http://www.realaxismachining.com)

Real Axis Machining provides timely, cost-effective machining services with the highest level of quality and customer service. Their customers range from entrepreneurs requiring complex, unique, or small quantity prototypes to large institutional customers requiring higher volume production services.

**RevMedx**

Wilsonville, Oregon

(503) 218-2172

[www.revmedx.com](http://www.revmedx.com)

RevMedx's goal is to design, develop, and manufacture medical products that solve real-world issues in the prehospital and battlefield arena worldwide. Their focus is unique solutions to hemorrhage control that provide quantum-leap changes to first responders in time of application and reduction of blood loss in the field. Their product line includes XSTAT, XGAUZE, AirWrap, and TX Series Ratcheting Tourniquets.

**RP Advanced Mobile Systems (RPAMS)**

McMinnville, Oregon  
(503) 434-9446  
[www.rpadvancedmobilesystems.com](http://www.rpadvancedmobilesystems.com)

From fire response, to emergency rescue, to asset recovery - RP Advanced Mobile Systems (RPAMS) upfits a family of fast response, lightweight vehicles to help tactical teams successfully complete their critical missions. RPAMS prides itself on customizing purpose-built UTV's to fit each mobile mission, team configuration, and obstacles.

**RSA**

Lake Oswego, Oregon  
(503) 789-0187  
[www.rsa.com](http://www.rsa.com)

RSA is an American computer and network security company. RSA enables companies to detect, investigate, and respond to advanced threats; confirm and manage identities; and prevent IP theft, fraud, and cybercrime.

**S&K Global Solutions**

Bremerton, Washington  
(360) 917-1055  
[www.skgs-llc.com](http://www.skgs-llc.com)

S&K Global Solutions, LLC is a member of the S&K Family of Companies and is owned by the Confederated Salish and Kootenai Tribes. S&K Global Solutions is a service-oriented company that provides services and products to the federal government and private industry. S&K Global Solutions also offers expertise ranging from logistics, engineering, telecommunications, and information technology.

**S3 Manufacturing Inc.**

Gresham, Oregon

(503) 663-5571

[www.s3manufacturing.com](http://www.s3manufacturing.com)

S3 Manufacturing values relationships with their customers and offer numerous in-house machining services so you get the job done, on time and delivered with the expected quality. Consider them an extension of your manufacturing needs with the flexibility and creativity to work side by side with your success as their motivation. ISO9001 and AS9100D registered.

**Sagotech Corporation**

White Salmon, Washington

(509) 493-2185

[www.sagotechcorp.com](http://www.sagotechcorp.com)

Sagotech makes the world's smallest certified avionics. Their tiny aviation transponders have accumulated over a million flight hours in small and medium sized UAS, enabling the aircraft to be visible to ATC and combat air controllers. Sagotech also provides contract manufacturing, test, repair, and refurbishment. They have expertise in composite structure manufacturing, electronics assembly, test, and depot-level repair.

**SAM Medical Products**

Wilsonville, Oregon

(503) 427-0672

[www.sammedical.com](http://www.sammedical.com)

SAM Medical designs, develops and distributes life-saving products for the guardians, comforters and miracle workers confronting adversity around the world. Their products include the SAM Splint, SAM Chest Seal, SAM Junctional Tourniquet, SAM Pelvic Sling, Soft Shell Splint, ChitoSAM, SAMXT Extremity Tourniquet and our SAM Bleeding Control Kits.

**Samuel, Son & Co.**

Portland, Oregon  
(800) 267-2683  
[www.samuel.com](http://www.samuel.com)

Samuel is a family-owned, integrated network providing stainless steel, aluminum, and value add services and industrial products. As a strategic supplier, they work collaboratively with their customers to understand challenges, and to develop innovative solutions that create value and meet real business needs.

**Schaeffer's Specialized Lubricants**

Portland, Oregon  
(503) 351-0000  
[www.schaefferoil.com](http://www.schaefferoil.com)

Schaeffer's Specialized Lubricants: synthetic motor oils, hydraulic fluids, and diesel fuel additives, have achieved a world-class reputation for improving engine performance/fuel economy, but their product line includes all types of industrial lubricants, industrial greases, and industrial oils as well as specialty items like their chain lubes and degreasers.

**Schwabe, Williamson & Wyatt**

Seattle, Washington  
(206) 407-1538  
[www.schwabe.com](http://www.schwabe.com)

Schwabe, Williamson & Wyatt provides full-spectrum legal services through ??client support ??focused on six industry ?groups: Healthcare; Technology; Transportation, Ports and Maritime; Real ??Estate and ?Construction; Natural Resources; and Manufacturing, Distribution and Retail.

**Sherpa Design**

Portland, Oregon

(503) 771-3570

[www.sherpa-design.com](http://www.sherpa-design.com)

Sherpa Design is a mechanical design and prototyping company specializing in product development. Their innovative engineers and machinists provide complex modeling, product design, rapid prototyping, CNC fabrication, 3D fabrication and Teamcenter PLM services. Sherpa Design has experience in many industries including thermos-optics, consumer electronics, semiconductors and more.

**Shields Manufacturing**

Tualatin, Oregon

(503) 625-9394

[www.shieldsmfg.com](http://www.shieldsmfg.com)

“World Class Standards, American Made Quality” Shields has been supporting the semi conductor, medical and aerospace industry with precision CNC machined components and assemblies for over 25 years. Over the past several years they have expanded our capacity and capabilities, culminating in a 67,000 sq. ft. purpose designed facility in Tualatin, Oregon. ISO 9001:2015 certified.

**Shine Micro**

Port Ludlow, Washington

(360) 437-2503

[www.shinemicro.com](http://www.shinemicro.com)

Shine Micro is an ISO 9001 small business supplying COTS and MIL-spec equipment to commercial, government, and military clients in maritime, aerospace, and defense industries; and developing high-sensitivity AIS/VHF reception technology for Maritime Domain Awareness, Asset Tracking and Analytics, and Intelligence and Surveillance.

**Ship Interior Systems**

Hood River, Oregon

(541) 436-4440

[www.shipinteriorsystems.com](http://www.shipinteriorsystems.com)

Ship Interior Systems provides complete design, joiner engineering and supply of interior accommodations for work-boat, cruise, high-speed, merchant, passenger, and research vessels or offshore installations. Ship Interior Systems supplies sound attenuating, fire-rated, and lightweight products of superior construction, aesthetics, and livability.

**Sierra Microproducts, Inc.**

Anacortes, Washington

(866) 351-1226

[www.sierramicroproducts.com](http://www.sierramicroproducts.com)

Sierra Microproducts brings together the world's best technologies, renowned engineering design, and proven implementation methodologies to deliver customized IT infrastructure solutions for clients worldwide. From strategic planning and tactical execution to management and post deployment support, Sierra Microproducts brings together talent, technology, and trust to every client engagement.

**Sierra-Olympic Technologies, Inc.**

Hood River, Oregon

(541) 716-0016

[www.sierraolympic.com](http://www.sierraolympic.com)

Sierra-Olympic Technologies develops and distributes standard product and custom infrared imaging systems. Combining sensors, optics, and processors from various sources, Sierra-Olympic develops application specific cameras for OEM and ODM customers in defense, aerospace, and homeland security markets.

**SIGMADESIGN**

Camas, Washington

(360) 693-2600

[www.sigmadzn.com](http://www.sigmadzn.com)

SIGMADESIGN is a product design and engineering firm offering professional services that support projects from concept through production. The firm is ITAR registered and provides consulting services including industrial design, systems, mechanical, electrical, firmware and software engineering, as well as prototyping, testing, and manufacturing.

**Silicon Forest Electronics**

Vancouver, Washington

(360) 694-2000

[www.siliconforestelectronics.com](http://www.siliconforestelectronics.com)

Silicon Forest Electronics is an electronics manufacturing services provider to customers in the defense, aerospace, unmanned systems, medical, and instrumentation sectors. SFE supports a full range of needs from prototype support to full turnkey production and project management, including test and new product support services.

**Simplex Aerospace**

Portland, Oregon

(503) 257-3511

[www.simplexmfg.com](http://www.simplexmfg.com)

Simplex is a leader in design, manufacturing, and certification of aerial application systems and mission equipment. Simplex incorporates the latest technology in the design and manufacturing of systems from high-strength, low-weight composite materials to produce reliable and cost-effective solutions for wildland firefighting, agricultural application, electrical utility cleaning, high rise firefighting, cargo, oil spill response, and controlled burning.

**SLR International Corporation**

West Linn, Oregon  
(503) 723-4423  
[www.slrconsulting.com](http://www.slrconsulting.com)

SLR is an international environmental consultancy, with U.S. corporate offices in Portland and Seattle. Globally, SLR includes 76 offices in Europe, North America, Asia Pacific, and Africa. SLR is considered one of the top five niche global specialist environmental consultancies who provide advice and technical support on a wide range of strategic and site-specific issues to a diverse and growing base of business, regulatory, and governmental clients.

**SOG Specialty Knives & Tools**

Lynnwood, Washington  
(425) 771-6230  
[www.sogknives.com](http://www.sogknives.com)

SOG's story begins in Vietnam, where members of a highly classified US special ops unit - MACV-SOG used a unique knife on covert missions. In 1986, that knife inspired the founding of SOG Specialty Knives. SOG now has a full line of innovative tools - field-proven by US Special Forces and honored as the Navy SEAL knife of choice.

**Stardust Materials**

Vancouver, Washington  
(360) 260-7399  
[www.stardustus.com](http://www.stardustus.com)

Stardust Materials is a security technology development firm, specializing in covert markers for securing supply chains, government documents, and 3D printing parts against counterfeiting. Stardust's solutions are used in tax stamps and currency in the US and abroad. They're a materials science laboratory with materials analysis capabilities and can create customized infrared phosphors.

**Stoller Family Estate**

Dayton, Oregon

(503) 864-3404

[www.stollerfamilyestate.com](http://www.stollerfamilyestate.com)

The Stoller family established the property in 1943 and the vineyard fifty years later. Today, they are the largest contiguous vineyard in Oregon's Dundee Hills. They control every step of the process, from pruning to bottling and everything in between. The result is award-winning wines that are balanced, complex, and consistently exceptional.

**Stratasys Direct Manufacturing**

Tualatin, Oregon

(503) 314-2710

[www.stratasysdirect.com](http://www.stratasysdirect.com)

Stratasys Direct Manufacturing provides prototype and production parts employing 3D printing technologies of polyjet, stereolithography, laser sintering, fused deposition modeling, and direct metal laser sintering. Production capabilities include urethane casting, CNC machining, and plastic injection molding. "One partner for every part."

**Stripes Global**

Bremerton, Washington

(800) 690-8219

[www.stripesglobal.com](http://www.stripesglobal.com)

Stripes Global Inc. was founded on the principle of providing high-quality medical, dental and life science equipment, devices, services, and commodities to those serving veterans, soldiers, and those in need. # BENEFITS OF PNDC MEMBERSHIP

---

## ACCESS. INTELLIGENCE. SUPPORT

### Networking

PNDC provides regular, structured networking events for our members.

### Training and Education

PNDC's training seminars, webinars, and conferences help member companies successfully navigate government regulations to expand their government contracting, subcontracting, and exporting work.

### Advocacy

PNDC convenes regular Congressional Roundtable discussions to bring our members face-to-face with U.S. Representatives & Senators to ensure that Congress and federal agencies address the needs of Northwest defense/security businesses.

### Marketing

We want to publicize your good work. Contact us when you have new contracts, equipment, capabilities, products, or job openings and we will use our social media, website, e-newsletter, and other marketing platforms to help market your business to potential customers

**WWW.PNDC.US | 888-701-PNDC**

WASHINGTON STATE

# SOARING TO NEW HEIGHTS

CHOOSE  
**Washington**  
STATE

For more than a century Washington State has led the way in the U.S. aerospace industry. More than 1,300 commercial and military aircraft and UAS pour from our factories each year, supported by 1,350 aerospace companies and a supply chain that spans the globe.

Washington is not only proud to be the exclusive manufacturer of the 737, 747, 767 and 777, but also the next generation of fuel efficient, high-tech aircraft, the 737 MAX and the 777X.

Add in our growing space cluster, led by Aerojet Rocketdyne, Blue Origin, SpaceX and Tethers Unlimited, and Washington State is ready to lead the way in aviation and space exploration for decades to come.

Find out more about opportunities in Washington's robust aerospace industry at [ChooseWashingtonState.com](http://ChooseWashingtonState.com) or call (206) 256-6100 for more information.
