David H. Sutherland & Co. Inc.

David H. Sutherland & Co., Inc. **is a trusted family-owned business that provides** **high-performance aerospace and defense products.**

DHSCO was founded in 1951 by David H. Sutherland, a World War II B-29 fighter pilot, who began his company by exporting North American products to Asia. Today we're a global trade organization that has built customer partnerships with many of the best-known domestic and international aerospace contractors and manufacturers in the world.

We continue to be family-owned, run by second- and third-generation executives overseeing a workforce that has tripled in the last 10 years.

DHSCO is known for providing quality products, high standards and personalized customer service. Our approach is summed up by our company vision statement: "A Trusted Partner in Pursuit of Excellence."

YOUR RESOURCE – AND YOUR PARTNER

DHSCO offers our customers a wide range of products: everything from surface treatments and films to adhesives and lubricants.

DHSCO is more than just a distributor – we're a valuable partner for our customers, offering professional help with inventory management, shipping, quality-control inspection, and hazardous materials packing and documentation.

DHSCO FACTS

Approved U.S. government contractor for more than 20 years
Quality Management certifications: ISO9001: 2008 and AS9120 Rev A

Staff fluent in four languages; leadership team averages
20 years of experience in the industry

Supplier to Boeing, SpaceX, Northrup Grumman,
Lockheed Martin and many others

International customers in Japan, South Korea, Brazil,
Turkey, U.K., Taiwan, China and more

for Generational Development

BRINGING GOVERNMENT CONTRACTS INTO FOCUS

When **Pacific Northwest** companies need Government contract and litigation counseling, we provide full spectrum guidance on compliance, contract bidding & negotiation, ethics, dispute resolution, cybersecurity, federal grants and more. We have niche experience in counseling defense and aerospace, construction, and tech industry clients, as well as significant experience navigating issues with the Small Business Administration and regularly representing clients before the Boards of Contract Appeals, the U.S. Court of Federal Claims, and U.S. Court of Appeals for the Federal Circuit. We counsel on cybersecurity related matters, data rights protection, licensing agreements and all compliance-related issues including those faced by Department of Defense contractors and subcontractors. Our cross-functional teams ensure our clients have access to unique and specialized knowledge regarding employment, IP, energy, environmental issues and more.

Experience the Progress.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control/actuation systems, landing gear and air management systems as well as gearboxes. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters. Liebherr's aerospace and trans-

portation systems division employs around 4,900 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline (Michigan/USA), Seattle (Washington/USA), Montreal (Canada), São José dos Campos (Brazil), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Singapore and Shanghai (People's Republic of China).

BENEFITS OF JOINING PNDC

The Pacific Northwest Defense Coalition is the association of over 200 Northwest defense and security businesses. PNDC focuses on strengthening our members' business growth, our region's economy, and our nation's security through training, one-on-one counseling, business-to-business networking, and advocacy.

Networking

PNDC provides regular, structured networking events for our members.

Training and Education

PNDC's training seminars, webinars, and conferences help member companies successfully navigate government regulations to expand their government contracting, subcontracting, and exporting work.

Advocacy

PNDC convenes regular Congressional Roundtable discussions to bring our members face-to-face with U.S. Representatives & Senators to ensure that Congress and federal agencies address the needs of Northwest defense/security businesses.

Procurement Counseling

Our full-time Procurement Counselor assists companies with federal and state contracting. We also offer a free bid match service for our Washington and Oregon members.

Remember to “like us” at: [Facebook.com/AmericanPreparedness](https://www.facebook.com/AmericanPreparedness). GET READY-BE READY-STAY READY!

Ameristar Solar

47637 NW Cedar Canyon Road
Banks, OR 97106
(503) 270-7804
www.ameristarsolar.com

Ameristar Solar is creating and manufacturing rugged, mobile energy storage systems and LEED Certified Net Zero modular energy storage buildings in Oregon. The 1-3kW Ameristar SolarStream® is easily towed by SUV's and light duty trucks for outdoor power in remote locations; the 5kW GyroVolts® is designed for military and disaster operations; and 10-40kW Ameristar SolarARC® is built for distributed generation for small neighborhoods and communities worldwide.

AMMCON Corp.

21450 West Union Road
Hillsboro, OR 97124
(503) 645-5206
www.ammcon.com

AMMCON started business as Suburban Machine Works in 1973 and soon started doing business with large defense and heavy equipment customers. Today, AMMCON has dozens of modern machines providing advanced manufacturing including marine piping components and welded products in all ferrous and non-ferrous alloys.

Anderson Quality Spring Manufacturing, Inc.

125 S Hazel Dell Way

Canby, OR 97013

(503) 266-6800

www.andersonqualityspring.com

Anderson Quality Spring is a manufacturer of custom coil springs and formed metal products. We work with manufacturing companies worldwide in the automotive, truck, aerospace, defense, medical, dental, electronic, and sporting goods industries. Our capabilities range from simple coil springs, to exotic metal forms, to wave springs, and beyond.

Applewhite Aero

PO Box 46955

Seattle, WA 98146

(206) 762-5285

www.apple.aero

Applewhite Aero was founded to supply industry and government with unmanned vehicles for land, sea, and air. We offer turn-key solutions for the myriad of emerging civil services UAS can provide from agriculture to mapping to inspections to search and rescue. In addition, we offer a number of engineering services, including SolidWorks design, rapid prototyping, and composite plug and mold design.

AR Modular RF

21222 30th Drive SE

Bothell, WA 98021

(425) 485-9000

www.arww-modularrf.com

AR Modular RF's products play a critical role in Military Communications, Electronic Warfare, Electronic Countermeasures, Homeland Security, and a variety of Medical, Scientific, Industrial and Wireless Communications applications. Our innovative broadband solid state RF amplifier systems and modules are helping to create new opportunities and new applications in every market we serve.

Arcturus UAV

3011 NE 282nd Avenue
Camas, WA 98607
(707) 206 - 9372
www.arcturus-uav.com

Arcturus UAV creates exceedingly rugged airframes. We can design and tool an airframe to meet your specific requirements or transition your design from drawing to production in record time. We provide extensive experience in weight management, RFI problem solving, range maximization and optimization of system performance, and integration of airframe, avionics and payloads.

Asko Group / Asko Processing Inc.

434 N. 35th Street
Seattle, WA 98103
(206) 634-2080
www.askogroup.com

For more than 40 years, the Asko Group of companies has provided a complete range of high-quality services to plate, paint, repair or recondition metal parts for aerospace, electronics and industrial applications.

**Association for Unmanned Vehicle Systems Int'l
(AUVSI) - Cascade Chapter**

www.auvsi.org/cascade

The Cascade Chapter, a branch of AUVSI, provides an organization for individuals with a common interest in Unmanned Vehicle Systems and who wish to foster and expand the domain of Unmanned Vehicle Systems; advance the technology; exchange ideas and information; and promote the education of the membership and general public in the field of Unmanned Vehicle Systems.

Association of the United States Army (AUSA) - Columbia River Chapter

www.ausacolumbiariver.org

Our goal is to be the premier voice of America's Army – Active, National Guard, Reserve, Civilians, Retirees, and Families. We are dedicated to serving the entire AUSA family through a variety of activities, programs, and projects. Membership is open to any Soldier, business, or organization with a desire to support the men and women who proudly serve our country and preserve our freedom.

Astro Tool Group

21615 SW Tualatin Valley Highway
Beaverton, OR 97003
(503) 642-9853

The Northwest Connector

The Northwest Connector is an online buyer/supplier database containing detailed profiles of Pacific Northwest companies across all industries at every level of the supply chain.

- This tool links Northwest businesses to opportunities around the country via a robust, searchable, online “buyer/supplier” database.
- The database contains detailed company profiles, including specific capabilities, products and services.
- This is a free service – there is no cost to participants or users.
- There are already over **5,500** Northwest companies in the database, with more added everyday.

The Pacific Northwest is home to an array of world class manufacturers with state-of-the-art product lines, technical expertise, and capabilities. These manufacturing experts are ready and able to supply customers anywhere around the world.

In order to help clients identify potential Northwest companies who can meet their needs and continue to build value to supply chains, the Pacific Northwest Defense Coalition has engaged with several public and private groups, to present the **Northwest Connector**.

Tillamook, OR 97141
(503) 842-1990
www.nsc.aero

NSC provides services in support of high altitude balloon, airship, and unmanned aerial vehicle flight operations. NSC is a leader in high altitude/near space operations and has an established record of meeting the requirements of NASA, NOAA, and the Department of Defense. NSC is capable of providing commercial engineering, production, and flight operations within a single organization.

New Era Contract Sales, Inc.

5838 S. Adams Street
Tacoma, WA 98409
(253) 272-3553
www.newerasalesteam.com

New Era is the logical choice to serve as the DOD dealer for your partner's products, with Military documentation and compliance. Our capabilities include: Procurement Management Services, WAWF, DD250, MSL & Mil-Spec Packaging Services, Emergency Spot buys, Logistics Services, and Kitting Solutions.

North Clackamas Chamber of Commerce

8305 SE Monterey Avenue, Suite 104
Happy Valley, OR 97086
(503) 654-7777
www.yourchamber.com

North Clackamas Chamber of Commerce is committed to building a stronger local economy by being an advocate for our members and voice for the business community at the county and state levels of government. Providing programs that enable all professionals to expand their knowledge on business related topics and local government so they stay in tune to what's going on throughout their community.

Northwest Etch Technology

2601 S. Hood Street
Tacoma, WA 98409
(800) 343-2401
www.nwetch.com

NW Etch is your alternative machining method for flat, thin metal parts of complex design when other machining methods won't suffice, providing burr-free and oil-free aerospace parts without discoloration, warping, or structural changes to the metal. Our photo chemical machining results will impress with a clarity and precision not available via other methods, at a competitive price.

Northwest UAV Propulsion Systems

11160 SW Durham Lane, Suite 1
McMinnville, OR 97128
(503) 434-6845
www.nwuav.com

NWUAV builds engines and support systems for UAVs. Capabilities include: Engineering, R&D, testing, production, and manufacturing which are integrated within our organization, producing fast results for clients. We provide assistance from concept through production, within our AS9100/ISO9001 Certified, DCAA compliant operation.

Ochoco Arms, Inc.

187 NW 2nd Street
Prineville, OR 97754
(541) 233-4165
www.ochocoarms.com

Ochoco Arms specializes in the home defense, tactical, and sportsmen's markets. Our patented multi-laser sighting technology, (OA Hotzone by OA Tactical), addresses the need for a shotgun laser sighting system that displays the perimeter of the shot pattern, eliminating the guess work and significantly reducing the anxiety associated with firing a shotgun in a high-risk situation.

Omega Morgan

23810 NW Huffman Street
Hillsboro, OR 97124
(503) 647-7474
www.omegamorgan.com

Omega Morgan is an innovative leader in heavy machinery moving, rigging, erection, and assembly. Machinery moving includes industrial equipment moves, turnkey plant relocations, disassembly, removal, transportation and installation/assembly of manufacturing equipment, warehousing, industrial construction, crating and packaging, and the operation of transload facilities to support rail-to-trucking operations.

OptiNav

1414 127th Place NE, #106
Bellevue, WA 98005
(425) 891-4883
www.optinav.com

OptiNav provides acoustical measurements and research. Dr. Dougherty has made leading contributions to the phased array aeroacoustic test technique, including beamforming algorithms, array design, and presentation of results. He has applied this technique to clarify airframe, turbomachinery, and jet noise sources. In addition, he has developed standard computer programs for predicting nacelle acoustic propagation by ray tracing (RDIFF) and the parabolic approximation.

OPTIS North America

701 Fifth Avenue, 42nd Floor
Seattle, WA 98104
(248) 251-0128
www.optis-world.com

OPTIS' award-winning solutions enable designers, engineers, and ergonomists to analyze and optimize the optical performance and appearance of future products while increasing design productivity. Their services include: measurements, consulting, training, and on-site engineering.

Oregon Aviation Industries (ORAVI)

PO Box 313
Marylhurst, OR 97036
(541) 406-0711
www.oravi.org

Oregon Aviation Industries (ORAVI) is a membership organization that is focused on economic development for the 400+ aviation related businesses in Oregon and the surrounding region. We are leaders in Unmanned Aerial Systems (UAS), Worldwide Heavy Lift Helicopter operations, Avionics, Aircraft and parts manufacturing, and general and commercial operations and maintenance. Our members work together to drive the aviation economy forward.

Oregon Ballistic Laboratories

2873 22nd Street SE
Salem, OR 97302
(503) 540-8114
www.oregonbl.com

Oregon Ballistic Laboratories (OBL) is an independent, full service armor testing lab located in Salem, Oregon. OBL generates accurate and impartial test data which is used throughout the world as a measure of quality, performance, and safety. Our services are divided in to five distinct categories: Ballistic Testing, Body Armor Testing, Stab Testing, Blast Testing, and Forced Entry Testing.

Oregon Government Contracts Assistance Program (GCAP)

1144 Gateway Loop, Suite 203
Springfield, OR 97477
(541) 736-1088
www.gcap.org

The Government Contract Assistance Program (GCAP) is part of a nationwide network of Procurement Technical Assistance Centers (PTAC) working to help small businesses compete successfully in the government marketplace. GCAP's mission is to assist Oregon small businesses to succeed in obtaining Government Contracts, which stimulate the growth of Oregon's economy.

Oregon Institute of Technology

27500 SW Parkway Avenue
Wilsonville, OR 97070
(503) 821-1250
www.oit.edu

Oregon TECH

The Oregon Institute of Technology (Oregon Tech) is an institution founded on the principles of excellence through hands-on knowledge. We believe in giving students a rigorous, practical education while applying cutting-edge concepts for real-world solutions. As the Pacific Northwest's premier public institute of technology, we take pride in our mission to deliver technology education.

Oregon Manufacturing Extension Partnership (OMEP)

7650 SW Beveland Street, Suite 170
Portland, OR 97223
(503) 406-3770
www.omep.org

OMEP helps companies grow. We bring advanced thinking and hands-on skills to guide you towards business improvements that lead to immediate results. Our goal for you is permanent, long-term profitability. Our services include: customer focused innovation, engaged workforce, operational excellence, supply chain management and collaboration, sustainability, and global engagement.

Oregon National Guard

1776 Militia Way SE

Salem, OR 97309

(800) 452-7500

www.oregon.gov/omd/pages/index.aspx

The Oregon National Guard will provide the citizens of the State of Oregon and the United States with a ready force of citizen soldiers and airmen, equipped and trained to respond to any contingency, natural or man-made. When we are needed, we are there.

Oregon National Guard Association

1776 Militia Way SE

www.p-mtinc.com

Plastic-Metals Technologies and PMT Shielding Solutions together are an industry leader in vacuum metallizing, engaged in the aerospace, defense, medical, and highly reflective coatings industries. In addition to our extensive experience in metallizing, thin-film, and additive coating fields, we offer expertise in electronics industry product design, operations, and manufacturing.

Portland Development Commission

222 NW 5th Avenue
Portland, OR 97209
(503) 823-3200
www.pdc.us

Created by Portland voters in 1958, the Portland Development Commission has been a driving force in Portland's reputation for vibrancy and livability. As Portland's urban renewal and economic development agency, PDC focuses on investing in the job creation, innovation and economic opportunity that will transform Portland into one of the world's most desirable and equitable cities.

Powder River Cartridge Company

170 W Ellendale Avenue, Suite 103-123
Dallas, OR 97338
(855) 357-4570
www.powderrivercartridge.com

Powder River Cartridge Company provides high quality bulk ammunition. As a manufacture direct company we are the only licensed dealer for both our bulk Powder River Cartridge line and our Evil Roy Cowboy Action Signature Series. Every round is checked with human eyes and safely packed to ship directly from our manufacturing facility here in the United States to our loyal customers.

PPI Technical Services, LLC

1125 Andover Park W.
Tukwila, WA 98188
(800) 722-7767
www.ppitechservices.com

PPI Technical Services is a services based company that specializes in multiple areas of the aviation industry, including propellers. We provide training, setup of maintenance facilities, back shops, and equipment sales. Examples of these shops are: Non Destructive Testing (NDT), Metal Plating, Structural Repair, and Hydraulic Repair and Overhaul.

Puget Systems

2707 West Valley Highway N.
Auburn, WA 98001
(888) 784-3872
www.pugetsystems.com

Puget Systems specializes in the design and manufacturing of high quality custom built PCs including quiet gaming computers, desktops, workstations, laptops and servers. Our clients include consumers, gamers, enthusiasts, government, and businesses. We emphasize customization over every aspect of each computer, offering personal consulting and support that has become quite rare in the industry.

QB Fabrication & Welding

10615 SE Knight Street
Portland, OR 97086
(503) 788-1363
www.qbfabrication.com

QB Fabrication is the largest producer of steel lattice towers in the Pacific Northwest. The raw material we use for fabrication is sourced from regional mini mills which utilize Electric Arc Furnace technology, a process which averages over 96% recycled content. We have supplied towers and substation structures all across the Western States and into Canada.

Quality Production, Ltd.

21420 NW Nicholas Court
Hillsboro, OR 97124
(503) 617-0210
www.qpl-ems.com

QPL is dedicated to delivering the highest quality electronics manufacturing services with an approach that is tailored to meet the needs of medium sized OEMs. We specialize in turnkey manufacturing of high mix, high complexity products for military, avionics, industrial, medical, and energy management markets.

Rainier Arms, LLC

2504 Auburn Way N.
Auburn, WA 98002
(253) 218-2999
www.rainierarms.com

Rainier Arms specializes in high end AR15s/M16s, parts and accessories. Rainierarms.com offers more than 2,400 unique products that include firearms, uppers, lowers, barrels, ammunition, and accessories. Our technical advisory team consists of enthusiasts, law enforcement, and military personnel that continue to make our offerings unique and desirable in the marketplace.

Ran-Bro Tool Co.

31678 NW Hillcrest Street
North Plains, OR 97133
(503) 647-7448
www.ran-bro.com

We are a custom precision machining job shop specializing in the design and manufacture of High Pressure molds for the Plastic Injection Molding and Die Casting Industries. Ran-Bro Tool serves companies in the Investment Casting, Die Casting, and Injection Molding Industries. Ran-Bro Tool has been a producer of molds, dies, Target fixtures, and short run production machining since 1965.

Ran-Tech Engineering & Aerospace, Inc.

5516 SE International Way
Milwaukie, OR 97222
(503) 652-3353
www.rantech.net

By using cutting edge technology to design quality into every sheet metal, machined, formed, or assembled product we produce, we consistently deliver the high performing parts you need to get your project completed on-time and to your standards. In order to maintain the high standards of quality for their products, Ran-Tech internally designs and manufactures tooling for all processes within the factory.

Real Axis Machining

1205 SE Grace Avenue
Battle Ground, WA 98604
(360) 723-0753
www.realaxismachining.com

Real Axis Machining provides timely, cost-effective machining services with the highest level of quality and customer service. Our customers range from entrepreneurs requiring complex, unique, or small quantity prototypes to large institutional customers requiring higher volume production services.

Red Arrow Logistics

22605 SE 56th Street, Suite 270
Issaquah, WA 98029
(425) 747-7914
www.redarrowlogistics.com

Red Arrow Logistics provides ground, air and sea freight services to Fortune 100 companies and others with high value, time sensitive, and complex shipping requirements to/from 180 countries worldwide. We are DoD bonded and specialize in ITAR and EAR compliant cargo. Value delivered.

RevMedx

25999 SW Canyon Creek Road, Suite C
Wilsonville, OR 97070
(503) 218-2172
www.revmedx.com

RevMedx's goal is to design, develop, and manufacture medical products that solve real-world issues in the prehospital and battlefield arena worldwide. Our focus is unique solutions to hemorrhage control that provide quantum-leap changes to first responders in time of application and reduction of blood loss in the field. Our product line includes XSTAT, XGAUZE, AirWrap, and TX Series Ratcheting Tourniquets.

S&K Global Solutions, LLC

219 Naval Avenue
Bremerton, WA 98312
(360) 479-5790
www.skgs-llc.com

OREGON BALLISTIC LABORATORIES

Oregon Ballistic Laboratories (OBL), is conveniently located on the US West Coast. We pride ourselves on unparalleled customer service, competitive pricing and quick testing turnaround. Our staff has a wealth of ballistic, blast & engineering expertise which is frequently used for product characterization to support R&D and certifications.

OBL is an NIJ certified, NVLAP accredited body armor testing laboratory (NVLAP Lab Code 200826-0) capable of performing all portions of NIJ Standard 0101.06, including the hard and soft armor environmental conditioning cycles. OBL is also certified by the US Army Aberdeen Test Center to perform testing in the Hard Armor and Soft Armor industries.

OBL also has a fully enclosed large caliber range that is capable of firing all projectiles from .22 caliber to 25mm and our traditional open range can handle up to .30 caliber AP projectiles at any distance up to 15 meters. OBL has extensive experience with NIJ 0108.01, EN 1063:2000, UL 752, STANAG 4569, and vehicle exploitation testing which is conducted at one of our three remote outdoor ranges. OBL is certified by the US Department of State for testing to SD-STD-01.01 Rev. G, Forced Entry and Ballistic Resistance of Structural Systems.

Aerospace companies like Flir, Precision Castparts, Boeing and others are designing and manufacturing in Oregon, because **we still make things in Oregon.**

And much more than beer and blueberries.

Microchips, video displays, medical devices, UAV Systems, helicopters, and shelter systems are all produced in Oregon.

WASHINGTON STATE

SOARING TO NEW HEIGHTS

CHOOSE
Washington
STATE

For more than a century Washington State has led the way in the U.S. aerospace industry. More than 1,300 commercial and military aircraft and UAS pour from our factories each year, supported by 1,350 aerospace companies and a supply chain that spans the globe.

Washington is not only proud to be the exclusive manufacturer of the 737, 747, 767 and 777, but also the next generation of fuel efficient, high-tech aircraft, the 737 MAX and the 777X.

Add in our growing space cluster, led by Aerojet Rocketdyne, Blue Origin, SpaceX and Tethers Unlimited, and Washington State is ready to lead the way in aviation and space exploration for decades to come.

Find out more about opportunities in Washington's robust aerospace industry at ChooseWashingtonState.com or call (206) 256-6100 for more information.
