WEEKLY MIGRATION UPDATE BRIEF

- ❑ Tier 1 and 2 offices are responsible for ensuring all actions over SAP are migrated to the appropriate Tier 3 Center for pre-award
- ❑ Tier 1 and 2 offices are responsible for all post award activities migrated to Tier 3 Centers for pre-award activities. However, Tier 1 and Tier 2 offices will require PARC level review for all modifications.

QUARTERLY MIGRATION UPDATE BRIEF

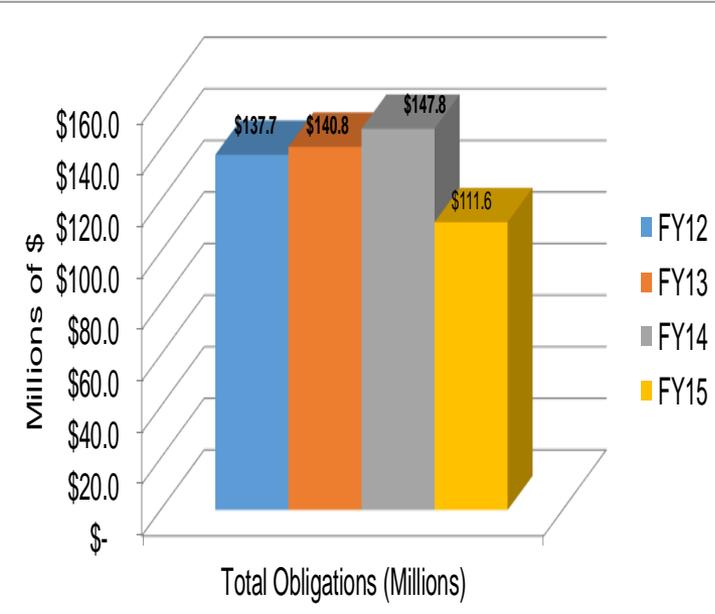

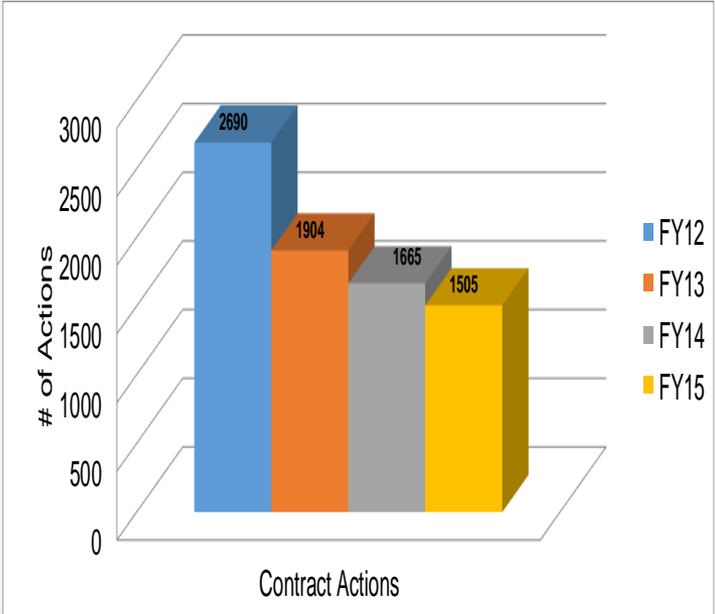

- ❑ CTOC is the primary tracking tool for all contracting actions.
- ❑ Center/Offices will structure their Mission and Installation Divisions as cradle to grave
- ❑ Maintain and monitor the Five Year Advance Acquisition Plan (AAP) and will identify actions two years in advance requiring migration. The actions will be identified no later than (NLT) 30 Dec of each calendar year.

Mission and Installation Contracting Command

Vincent Marsh - Director

- We have a mix of civilians and military. We are organized as post and pre award and we have a small purchase section. We train civilians and 51C Contracting Soldiers to execute the local mission and contingency operations.
- We purchase installation supplies and services. For example custodial, full food service, dining facility attendants, laundry, chemical latrines etc.
- Since we are a joint base we procure supplies, services, and a little bit of construction for Lewis Main and McChord Field.
- Know where your products or service fit into the Federal Supply Class or Service and your NAICS.
- Know where to find work on Federal Business Opportunities.
